### Ecological crimes as crimes against humanity?

He spoke at greenreport Cuno Tarfusser, Vice President International Criminal Court  
[5 April 2012]

«La giustizia internazionale, sotto questo profilo, sostanzialmente non esiste, ma anche all'interno dei singoli Stati, su questi temi la giustizia riesce ad operare in modo variabilmente e comunque poco efficace. **Sicuramente, però, la discussione sulla necessità di un più incisivo controllo giudiziario è aperta, ed è presente a vari livelli, sia in molti Stati, ma anche a livello internazionale.** A quest'ultimo riguardo penso in particolare alle iniziative promosse dall'Accademia Internazionale di Scienze Ambientali (IAES) che promuove e cerca di tenere vivo il dibattito sulla prospettiva della previsione di crimini ambientali quali crimini contro l'umanità affidando la giurisdizione alla Corte Penale Internazionale.
