

To the Rector of the University of Nova Gorica

Prof. Danilo Zvartanik

Dear Rector,

Dearest Danilo!

To receive the 2023 PAM award is a prodigious recognition of the work we undertook throughout our life

I am honoured to accept the award conferred to the International Academy of Environmental Sciences and to myself.

On this Award, I need to acknowledge the role and contribution of UNG starting with your conferred nomination as Professor Emeritus of the UNG to myself followed by the commitment of Prof. Sasa Dobricic, other illustrious members of the academy like the late Prof Joseph Cartei and obviously the work of our magnanimous president Adolfo Perez Esquivel.

I will be happy, to receive the Award, together with the Director General of the IAES, Avv. Paolo Dalla Vecchia, in the forms, place and time that you will want to communicate to me.

With great esteem I remain

Yours sincerely,

Venice, 30 March 2023

Prof. Antonino Abrami
